WD-4S BASIC / GLASS

UNDERCOUNTER DISHWASHER

FEATURES

- The WD-4S can wash up to 50 baskets per hour. This amounts to 1,000 glasses, 900 plates or 450 trays - hour after hour after hour.
- The clean design means that the washing chamber is larger and can even accommodate trays up to a size of 530 x 330 mm and 1/1 canteens with accessories.
- A simple push of a button allows you to easily change the water so you can switch between washing soiled plates and washing glasses and trays. The two functions in the same machine save both space and time.
- The low noise levels when the machine is in operation results in a good working environment.
- The door can be placed in a space-saving hygienic position, which prevents the growth of bacteria when the machine is not in use.
- The stainless steel wash arms have individually positioned nozzles. This allows coverage and cleaning of every millimetre of the dishware.
- An inbuilt drain pump ensures that all of the water is emptied regardless of the machine's position.
- Automatic control of the water temperature and quantity, as well as automatic cleaning, ensures a high standard of hygiene.
- Inbuilt dosing for both detergent and drying agents simplifies operation. No need for bulky dosing equipment next to the machine.
- Back flow protection prevents the back-flow of dirty water into the mains water system.

OPTIONS

- ECO-FLOW condensing unit with heat recovery by the exhausted steam. (Cold water connection is required) 6,9 kW booster heater is recommended.
- Built-in Softener treats hard water for better washing and rinsing results by reducing the lime content. Can not be combined with a condensation unit, active filter, or marine version. The machine must be equipped with a break tank.

- Booster heater 6,9 kW for cold water connection. Connection power 7,65 kW, 16A, only 3-fase connection. Capacity approx 35 baskets/hour.
- Active filter for continuous cleaning of water in wash tank.

EXTRA EQUIPMENT

- Bottom frame with guide rails for 3 baskets (201.0556)
- Bottom frame with guide rails for 3 baskets, lockable cabinet for detergent and drying agent for (201.0557)

- Integrated under the bench set, on right side (201.0550H)
- Integrated under the bench set, on left side (201.0550V)
- Splash plate on roof (201.0581)
- Glass basket (201.0558)

WD-6 GLASS

HOOD TYPE DISHWASHER

FEATURES

- The unique *Glasstilt* prevents water from accumulating on the base of the glass. Manual polishing of glass is minimized
- Robust and reliable design in stainless steel with components that guarantee a durable and reliable operation for many years
- The machine has an energy saving heat and sound insulating double-skinned hood.
- A good working environment with the unique hood concept
- High levels of hygiene with an automatic cleaning programme and guaranteed rinse temperature by thermal stop system
- Self-drained wash pump
- Break tank with booster pump
- Large deep tank to protect against foaming
- Easy servicing - the machine is serviced from the front
- Hygiene control – control system with integrated HACCP
- Excellent wash results – with selfdraining washing arms
- Powerful washing pressure with anti-blocking nozzles
- Individual adjustable wash- and rinse times as well as temperatures for each programme
- Inbuilt dosing pump for fine dosage of rinse aid
- Automatic cleaning program
- Water connection x 2 (RO)

OPTIONS

- Automatic hood
- Autostart for automatic hood
- 230V/3/50Hz
- Drain pump
- Detergent pump for liquid detergent
- ECO-FLOW condensing unit with heat recovery by the exhausted steam. (cold water connection is required)
- WEB Tool - For external HACCP documentation

EXTRA EQUIPMENT

- Steam hood with suction connection
- Shelf for chemical storage
- Sideboard (560 x 560 mm)

WD-6 DUPLUS GLASS

HOOD TYPE DISHWASHER

FEATURES

- The unique Glasstilt prevents water from accumulating on the base of the glass. Manual polishing of glass is minimized
- Double final rinse with DUPLUS technology – Improved rinsing results using less fresh water
- High efficiency with low operating costs – DUPLUS technology reduces the consumption of fresh water, chemicals and electricity
- Robust and reliable design in stainless steel with components that guarantee a durable and reliable operation for many years
- The machine has an energy saving heat and sound insulating double-skinned hood
- A good working environment with the unique hood concept
- Self-drained wash pump

WD-7 GLASS

HOOD TYPE DISHWASHER

FEATURES

- The unique glasstilt prevents water from accumulating on the base of the glass. Manual polishing of glass is minimized
- Unique and flexible washing system. The machines water pressure can be reset quickly and easily between normal and heavily soiled settings
- Robust and reliable design in stainless steel with components that guarantee a durable and reliable operation for many years
- Thanks to the adjustable water pressure you can easily switch between normal and heavily soiled loads
- The machine has an energy saving heat and sound insulating double-skinned hood
- A good working environment with the unique hood concept
- High levels of hygiene with an automatic cleaning programme and guaranteed rinse temperature by thermal stop system
- Self-drained wash pump
- Large deep tank to protect against foaming
